Contents Volume 107 Issue 5 | ADC Fetal and Neonatal Edition September 2022

Highlights from this issue
F457 Fantoms
B J Stenson

Review
F458 Neonatal and fetal therapy of congenital diaphragmatic hernia-related pulmonary hypertension
P R De Boe, C M Atallache, I. Joyce, H L Hedrick, F M Russo, D Bassuto, J Deprest, N E Rontvul

Original research
F467 Two-year neurodevelopmental outcome in children born extremely preterm: the EPI-DAF study
P E van Beek, M Rijkers, L Beccossed, H J J ter Horst, C Kispman-Esselboom, E de Kort, C Laaman, S M Melder-de Tollenaar, K Steiner, R M C Swaen, E van Westering-Kron, S G Oei, A G Leemhuis, P Andriessen, on behalf of the EPI-DAF study group

F475 Dual-site blood culture yield and time to positivity in neonatal late-onset sepsis
S A Coggins, M C Harris, I Srinivasan

F481 Impact of maternal obesity on neonatal heart rate and cardiac size
A M Groves, A N Price, T Russell-Webster, S Jhaveri, Y Yang, E E Ruttersby, S Shuhad, M Costa Viera, E Hughes, F Miller, A L Briley, C Singh, P T Seed, P J Chowiencky, K W D Stern, J Cohen, D Passupathy, A D Edwards, I Poston, P D Taylor

F488 Single versus continuous sustained inflations during chest compressions and physiologically-based cord clamping in asylostic lambs

F495 Parental perspective on important health outcomes of extremely preterm infants
M Jaworski, A Jansvier, C J Bourque, T-A Mai-Ve, R Pace, A R Synnes, T M Lua

F500 Effects of tactile stimulation on spontaneous breathing during face mask ventilation
V D Gaetner, C M Rugger, D Bassler, E O’Caruain, C O F Kamlin, S B Hooper, P G Davis, I Springer

F501 Effect of prophylactic dextrose gel on the neonatal gut microbiome
S L St Clair, J E Harding, J M O’Sullivan, G D Gamble, J M Alsowile, T Vatanen, for the hPOD Study Group

F508 Global incidence proportion of intraventricular haemorrhage of prematurity: a meta-analysis of studies published 2010–2020

F513 MRI-based brain volumes of preterm infants at term: a systematic review and meta-analysis
J Rombke, M Wilke, C Allgayer, T Näggele, C Engel, C F Poet, A Frans

F527 Severe neonatal hyperbilirubinaemia: lessons learnt from a national perinatal audit
B A M van der Geest, A N Roosan, K A Bergman, B J Smitt, P H Dijk, J V Been, C V Holzebos

F533 Associations of body composition with regional brain volumes and white matter microstructure in very preterm infants
K A Bell, L G Matthews, S Cherekzarzka, A K Proll, S K Warfield, T E Inder, S Onishi, M B Belfort

F539 Preliminary study of automated oxygen titration at birth for preterm infants
S K A Al, R V Jayaker, A P Marshall, T J Gale, P D Dargaville

F545 Predictors of anastomotic strictures following oesophageal atresia repair
M Aumar, R Sjfer, A Piache, D Tuck, F Gostland, on behalf of CRACMO

F551 Lung volume distribution in preterm infants on non-invasive high-frequency ventilation
V D Gaetner, A D Waldmann, P G Davis, D Bassler, L Springer, J Thomson, D G Timpany, C M Rugger
