

Archives of Disease in Childhood Fetal & Neonatal Edition

Journal of the Royal College of Paediatrics and Child Health

AIMS AND SCOPE

Archives of Disease in Childhood Fetal & Neonatal Edition was launched in 1988 to meet the growth of research in perinatal medicine. It is published bimonthly, as an edition of *Archives of Disease in Childhood*. Our aims are to ensure that the rapidly expanding field of perinatal medicine maintains its strong academic base and to make serious and quality research available to those with an interest in the various branches of perinatology. It brings together in one publication research papers and peer reviewed commissioned articles.
