Antenatal glucocorticoid treatment is not associated with long-term metabolic risks in individuals born before 32 weeks of gestation
M J J Finken, M G Keijzer-Veen, F W Dekker, M Frielich, F J J Wallker, J A Romijn, B J van der Heijden, J M Wit, on behalf of the Dutch POPS-19 Collaborative Study Group

Effect of gestation on initiation and duration of breastfeeding
S M Donath, L H Keshall

Reviews
F455 Bronchopulmonary dysplasia and inflammatory biomarkers in the premature neonate
C L Bose, C E L Dammann, M M Laughon

F462 Hearing loss in children with very low birth weight: current review of epidemiology and pathophysiology
R Cristobal, J S Oghalai

F469 When to transfuse preterm babies
E F Bell

PostScript
F474 Transcutaneous bilirubinometers and ethnicity
J Thomson, V Cafley, A Monfrinoli, A Sinha

F475 Audit cycle of newborn observations on the postnatal wards
C J Elder, B Ackerman, C Kingdon

F476 Early discharge of newborn infants before formal neonatal examination: a new model of practice
H Wong, R Kadalraja

F430 The INNOVO multicentre randomised controlled trial: neonatal ventilation with inhaled nitric oxide versus ventilatory support without nitric oxide for severe respiratory failure in preterm infants: follow up 4–5 years
C L Huddy, C C Bennett, P Hardy, D Field, D Elbourne, R Grieve, A Truesdale, K Dallas, on behalf of the INNOVO Trial Collaborating Group

F436 Lung volume and cardiorespiratory changes during open and closed endotracheal suction in ventilated newborn infants
A B Hoellering, B Copnell, P A Dargaville, J F Mills, C J Morley, D G Tingay
